

701, Grosvenor Ave.
Westmont.

Nov. 3rd 1952

Dear Muck,

You must know by this time that this branch of the family is lacking where letter-writing is concerned; our thoughts are often with you & yours but somehow weeks slip past & we never write - so please forgive us.

We are beginning to settle here but it has been more than hectic & both Louis & I are very exhausted - we will have to slow down for a while & rest. The boys are well & all very busy with studies & their many outside activities.

I hope by this time that you have managed to get another housekeeper - I wish you lived here so that I could help a bit.

Christmas seems a long way off but if you are making plans for the children if there is any chance of all of you spending the time with us we would be very happy to have you - is it possible? Please think about it.

Louis should be making a trip down your way soon & will give you all the news. In the meantime send thoughts & much love to all of you from all here - Sincerely
Jean
