Dear Michele & Annette;

We have moved to Victoria & taken up hobby farming. Seems like a good place to raise two boys. We've acquired a lactating goat & 2 dozen egg laying chickens. Guess those are all the complications we need to start our new life style.

Perhaps you will wander out this way come spring & help us eat some of those eggs!

THANK YOU
Thank you for the detailed family tree. You certainly put a lot of time & effort into it. But it's fun & worthwhile.

Wishing you
lots of
homemade happiness!

Merry Christmas
& Happy New Year

Love Tony, Inver
